

**Saluting Branches – CEU application for CTSP volunteer**

This request is for CEUs (continuing educational units) towards the Certified Tree Safety Professional (CTSP) credential through TCIA during a Saluting Branches annual event. Safety Site Leaders are tasked with a variety of assignments during this day of service. Volunteers are often working with other individuals they have never worked with before and are at different levels of safety skills. It is imperative for safety’s sake to have an extra set of eyes, which is where we have CTSPs utilize their skills. Initial safety meetings are mandated with the entire crew of volunteers. When a CTSP is available, a second safety brief is held at the specific worksite within the cemetery.

Please print clearly.

Name of CTSP:	CTSP No:
Location of Event (City, ST):	
Date of Event:	

Time spent in initial safety meeting: <b>Professional Development CEUs</b>	Hours____ Minutes_____
Time spent on additional job brief: <b>Safety Training CEUs</b>	Hours____ Minutes_____
